

esbe

esbe Designs – the brainchild of Sara Blaine and Mendel Rotenberg, was created in 2014 as a means to find different ways to give back. For the last 15 years, Sara has translated her visions into Jewelry through the hands of skilled artisans on the exotic island of Bali. Sara's appreciation for fine craftsmanship and her knowledge of gemstones is what sets her apart from the rest. She has been working with these same talented metalsmiths in Silver, Gold and alternative metals for over a decade and has incorporated new and traditional techniques which keeps her on target with the fashion industry. Sara's designs are handcrafted around an endless ensemble of semi-precious gemstones and freshwater pearls which reflect the melding of past world traditions with the fluid changes of modern times.

Today, Sara has set the trend for the field of affordable Designer Jewelry.

esbe Designs - Empowering Women to be Excellent!
